

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office APR 23 1979

Returned to applicant for correction _____

Corrected application filed _____

Map filed APR 23 1979 under 37987

The applicant Lovelock Meadows Water District

P.O. Box 1021, of Lovelock
Street and No. or P.O. Box No. City or Town

Nevada 89419, hereby make^s application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground
Name of stream, lake or other source.

2. The amount of water applied for is 1.0 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet N/A acre-feet

3. The water to be used for Municipal
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated) _____

(b) Stockwater (state number and kinds of animals to be watered) _____

(c) Other use (describe fully under "No. 12. Remarks") _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 33, T.29N.,

R.33E. MDB&M or at a point from which the S.E. corner of said Sec-

Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
tion 33 bears S65°21'E, 5369 feet.
it should be stated.

6. Place of use See attachment "A"
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) The water is pumped from a drilled well and is conveyed 54,000 feet to a storage reservoir. The water is then piped approximately 5 miles to the distribution system.
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....\$3,000,000
10. Estimated time required to construct works.....already completed
11. Estimated time required to complete the application to beneficial use.....10 years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

The Lovelock Meadows Water District as of this date is serving approximately a total population of 2300. This additional water will provide for future anticipated growth and will provide an additional 236 million gallons of water annually.

Applicant Lovelock Meadows Water District

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined amount of water granted under this permit and Permits 37987 and 37990 is limited to what the well covered under the two permits is capable of producing. If certificates of appropriation are issued under this permit and Permits 37987 and 37990 the total combined amount of appropriation granted in said certificates shall not exceed what the well covered under the two permits is capable of producing.

The total combined duty of water under this permit and Permits 37987, 37988, 37989, 37990, and 37991 shall not exceed 1,081.84 million gallons annually.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 235.2 million gallons annually.

Actual construction work shall begin on or before October 4, 1980

Proof of commencement of work shall be filed before November 4, 1980

Work must be prosecuted with reasonable diligence and be completed on or before October 4, 1981

Proof of completion of work shall be filed before November 4, 1981

Application of water to beneficial use shall be made on or before October 4, 1984

Proof of the application of water to beneficial use shall be filed on or before November 4, 1984

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed NOV 13 1980

Completion of work filed NOV 17 1981

Proof of beneficial use filed JAN 25 1982

Cultural map filed

Certificate No. 10386 Issued OCT 26 1982
